Actizone™ F5: Disinfectant Cleaner for 24h

May 2021

If you're looking to enter the new long-lasting disinfection business, this new product from Solvay could be your key.

COVID-19 has shifted the traditional detergent cleaner market, as customers are now looking for long lasting antimicrobial protection as well as cleaning power.

That's why we're excited to introduce you to Actizone™, a new solution from Solvay that offers long lasting disinfection technology.

Content

- About Actizone™
- 24-Hour Antimicrobial Protection
- Fast-Kill of More Than 99.9% of Germs
- Optimal Cleaning Experiences
- Sustainable Disinfection
- Try Actizone™

About Actizone™

Actizone™ technology allows building antimicrobial solutions that combine the fast-acting benefits of quick germ kill, with 24-hour bacterial and virucidal surface sanitization and a pleasant cleaning experience.

• 24-Hour Antimicrobial Protection

Actizone™ technology traps antimicrobial actives to form a protective film on a surface to offer 24-hour surface protection as actives remain continuously available to kill bacteria and viruses as needed.

• Fast-Kill of More Than 99.9% of Germs

Multipurpose disinfectant cleaners with Actizone™ technology provide consumers with expected fast germ-kill of bacteria, yeast, and viruses, including the coronavirus while providing desirable long-lasting antimicrobial properties. The efficacy of Actizone™ technology is proven through rigorous independent laboratory tests.

• Optimal Cleaning Experiences

Along with outstanding disinfection benefits, Actizone™ products can be used in multipurpose disinfectant cleaners to provide excellent shine and a residue-free finish on a range of surfaces, including laminate, polycarbonate, glass and steel.

• Sustainable Disinfection

Actizone™ products inherently reduce cleaning time in homes and industrial settings for more sustainable disinfection processes. The 24-hour antimicrobial solutions formulated with Actizone™ technology continue to disinfect surfaces all day and all night, allowing consumers to use fewer products and spend less time leaning commonly touched surfaces.

Try Actizone™

Actizone™ F5 conc. is a ready to dilute 6x concentrate bringing all Actizone™ benefits to customers with a guaranteed 24h disinfection claim as evaluated according to the US-EPA RSS Residual Self Sanitizing Test.

- Concentrate system, 6-1 dilution
- Excellent cleaning, disinfection and 24 hour surface protection
- Authorised for use as biocide in France, Germany, UK and Austria with more to follow
- PT2 and PT4 approved disinfection
- Passes EN1276, EN13697 and EN14476 (tested effective against coronavirus)

Contact us for the technical data sheet for Actizone™ F5 conc. or to request a sample. We're also happy to answer any other questions you may have.
