ORGANIC PRODUCTS

Organic ingredients meet consumer requirements for a healthy diet. Our products ensure desired benefits and enhance the value of your final product.

Through our competent technical assistance we guarantee a reliable and innovative realization of your ideas for dietary supplements, e.g. in capsules, sachets, beverages and more.

Consistent quality is just as important for us as superior standards for plant selection, region of origin, production method and this for more than 25 years.

As your partner for organic certified ingredients, we feel responsible to provide you with the best quality and service. Thereby, we trust on long-lasting cooperations with carefully selected partners.
